

First, navigate to <https://tafprint.etsu.edu:9001/webrelease>. This will display the mobile print site.

Log in to the mobile print system using your ETSU username and password

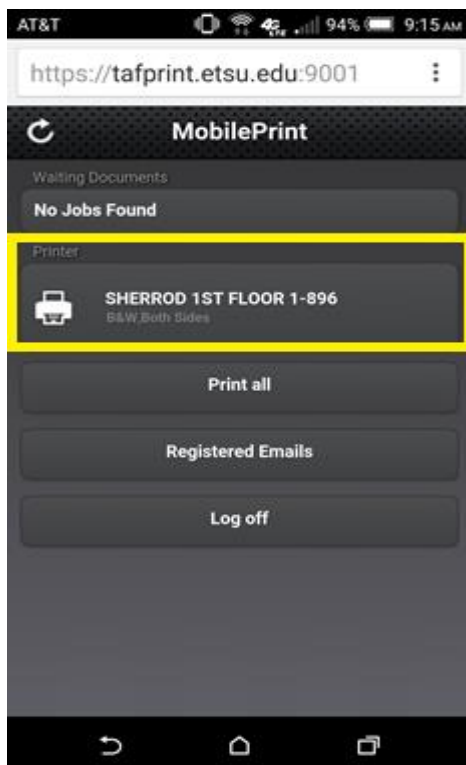

Once logged in, select the printer you wish to use by clicking the area labeled "No Printer Selected".

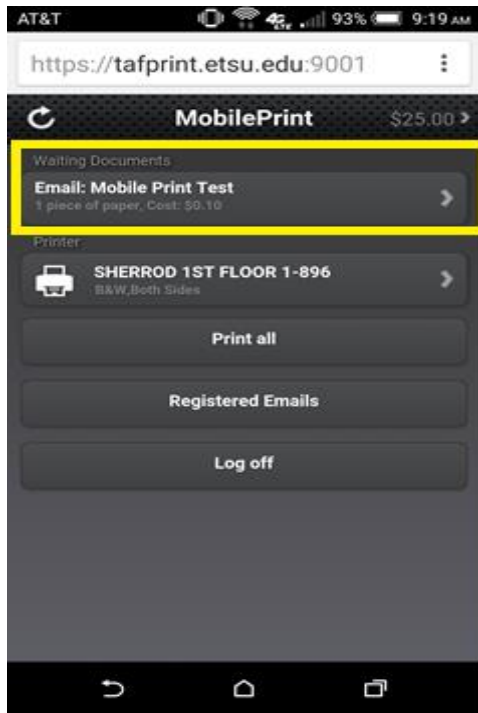

To select the printer you wish to use, type in "Sherrod" to show the printers available in the building. Select one of the printers.

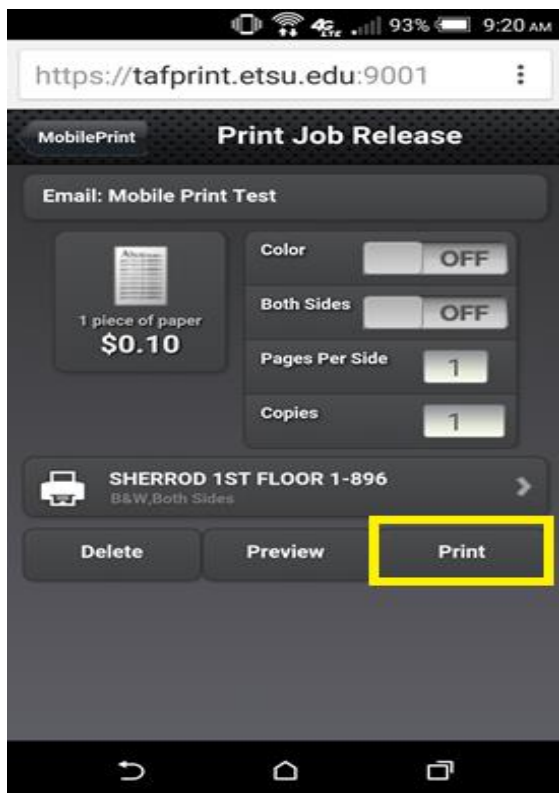

Once selected, the printer will show as below:

Documents you have ready to print will show up under the “waiting documents” section. Click the job you wish to print.

This will bring up the job release screen. After adjusting settings as you see fit, click “Print” to send the job!
